MARINE CORPS BULLETIN 8011

From: Commandant of the Marine Corps
To: Distribution List

Subj: CLASS V(W) MATERIEL ALLOWANCES FOR TRAINING, PROGRAMMED TESTING AND SECURITY

Encl: (1) Information and Instructions

1. Purpose. To provide updated Class V(W) materiel allowances for all Marine Corps training requirements: accession; entry-level; professional development; and sustainment as well as operational, security, ceremonial, and miscellaneous requirements.

2. Background. MCO P8011.4H previously contained general information, specific instructions, and the Table of Allowances for Class V(W) materiel for peacetime operations. The Table of Allowances component of the Order was cancelled in 1996 and those allowances re-published in this Bulletin. The scope of operational, organizational, and equipment changes since 1996 negated the continuing value of the remaining components of the Order, and it was cancelled.

3. Significant Changes. A summary of the significant change follows:

a. Management and Control recommended procedures to best utilize TAMIS and lessen the need for special allowances.

b. Additional instructions for requesting a change to the Bulletin.

c. Instruction pertaining the use of class V(W) with foreign services weapon systems.

4. Effective Date. This Bulletin is effective 1 October 2005 for Fiscal Year 2006.

5. Action. This Bulletin constitutes the sole source document for determining training ammunition allowances. Based on densities provided by the users, ammunition allowances are computed by TECOM and distributed via the Training Ammunition Management Information System-Redesigned (TAMIS-R). These computed allowances are the maximum quantities authorized for requisitioning and expenditure of training ammunition. In those instances where the computed allowances posted on TAMIS-R differ from allowances found in this published bulletin, coordination with TECOM is required to resolve those differences.

a. Commanders at all echelons are required to validate their densities annually.

(1) If the inventory can support the training allowance for unidentified densities, the training allowance will be provided that Fiscal Year.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

(2) If the inventory cannot support the training allowances for the unidentified densities, the training allowance will only be provided after it is identified in the POM process.

b. Commanders at all echelons will receive their annual training ammunition allowances via TAMIS-R (https://tamis.army.mil).

c. Commanders at all echelons will review their Class V(W) training requirements for FY06 based on the allowances contained herein; direct their G/S-3's to forecast their entire annual allocation in monthly increments in accordance with the published TEEP and provide that monthly forecast to the G/S-4s for posting in TAMIS-R by location. These monthly forecasts to supporting activities (ASPs) will facilitate logistic and inter service support planning through TAMIS-R.

d. Commanders at all echelons will submit annual ammunition expenditure reports utilizing TAMIS-R, however, to take advantage of this feature and ensure accurate accountability and expenditures, Commanders will ensure each requisition is properly reconciled in the TAMIS program. A failure in Command responsibility concerning ammunition accountability may lead to their account being frozen until an audit is performed.

6. Applicability. This Bulletin is applicable to the Marine Corps Total Force.

K. J. STALDER
By direction

CLASS V(W) MATERIEL REQUIREMENTS FOR TRAINING, PROGRAMMED TESTING AND SECURITY

Chapter 1

INFORMATION AND INSTRUCTIONS

1000. Scope

1. The CG MCCDC is responsible for establishing Class V(W) planning factors for warfighting, and authorized allowances for peacetime (i.e., training, established testing and security use). Within MCCDC these functions are further broken down as follows:

a. Warfighting. Combat Planning Factors (CPFs) for warfighting are established by the Operations Division, Integration Branch and will be published in MCBul 8010.1. The address for correspondence is:

Commanding General
Marine Corps Combat Development Command (C 39)
3300 Russell Road
Quantico, VA 22134-5001

Phone: DSN 278-6283, Commercial (703)784-6283, FAX 278-2532.

b. Peacetime. Authorized allowances for peacetime are established by the Training and Education Command (TECOM) and are the subject of this Bulletin. The address for correspondence is:

Commanding General
Training & Education Command (C 462AMMO)
Marine Corps Combat Development Command
3300 Russell Road
Quantico, VA 22134-5001

Phone: DSN 278-3711/15, Commercial (703)784-3711/3715, FAX 278-3060.

2. The office of the Program Manager for Ammunition, under the Commanding General, Marine Corps Systems Command (CG, MARCORSYSCOM) is responsible for Life Cycle Management of Class V(W) to include supply, logistics, and safety functions associated with Class V(W). The address for correspondence is:

Commanding General
Marine Corps Systems Command
Program Manager for Ammunition (PM-AM)
2200 Lester Street
Quantico, VA 22134-5010

Phone: DSN 378-3165/3166, Commercial (703)432-3165/3166, FAX 378-3131/3160.

3. All references herein to CG MCCDC refer to CG TECOM (C 462AMMO), unless otherwise specified. All references to CG, MARCORSYSCOM refer to the MARCORSYSCOM (PM Ammo), unless otherwise specified.

1001. Instructions. General Information

1. Increasing unit cost, diminished funding, and expanding requirements demand that ammunition be controlled, managed, and used effectively and efficiently.

2. The transportation, receipt, issue, and maintenance of ammunition is resourced with Operations and Maintenance, Marine Corps (O&MMC) funds. Ammunition is centrally programmed and procured using Procurement Ammunition, Navy and Marine Corps (PANMC) funds. As such, commanders have no direct programming and budgeting responsibility, or acquisition authority for Class V(W) training ammunition. However, it is incumbent on commanders to responsibly manage the training ammunition resources allocated to meet their training requirements and when possible, meet training objectives utilizing simulation.

3. Allowances promulgated in this Bulletin are based in part on Individual Training Standards (ITS), Training and Readiness Manuals (T&R), Mission Performance Standards (MPS), approved Plans of Instruction or Course Descriptive Data (POI/CDD), current tables of organization and equipment (TO/E) and, in rare instances, previously established allowances.

4. Ammunition will always be handled per existing safety procedures promulgated in MCO P8020.10, and related directives.

5. The rendering of ammunition into an unserviceable state can be minimized by:

a. Requisitioning and unpacking only what is required.

b. Retention and control of packaging materials. (Enables the repacking of items which have been prepared for use but cannot be used due to range cancellations, weather, weapon, or transportation failures, etc.)

1002. Management and Control

1. Through a joint MCCDC, TECOM and MARCORSYSCOM initiative the Marine Corps has resolved an ammunition management challenge by implementing a modified version of an existing application currently fielded and in use by the United States Army. This program is "Training Ammunition Management Information System-Redesigned", simply known as TAMIS-R. TAMIS-R is an unclassified system, non-sensitive, centralized database residing on an NT Web Server located within the Pentagon. Authorized users communicate with the database using a standard Internet Browser via Microsoft's Active Server Pages (ASP) and MS SQL Server technologies. TAMIS-R is the only authorized system to be used Corps wide for allocating, forecasting, requisitioning, expenditure reporting, redistribution and managing training ammunition allowances.

2. Redistribution is key in fulfilling all training requirements. MARFORs, MEFs, and MSCs must manage their annual ammunition allocations in TAMIS-R for their units, therefore, redistribution is authorized and directed where necessary.

3. As a redistribution tool, recommend that at the end of each month or quarter, or as determined the Commander, a redistribution meeting be convened in conjunction with the realignment of the commands TEEP. Accordingly, the commanders consolidate all unused ammunition allocations from the prior month or quarter at the MSC level for redistribution in support of identified changes in the TEEP. This action will maximize the ammunition support for mission accomplishment and will limit the submission of special allowance requests.

4. Improper or unauthorized storage or use of ammunition violates safety principles, exposes personnel and property to undue risk, and will not be tolerated.

5. MCO P3570.1 requires that any ammunition intended for overhead fire must be approved for such use. Ammunition certified as "CLEARED FOR OVERHEAD FIRE" must only be requisitioned when necessary to satisfy this requirement. The ammunition distribution system cannot provide cleared ammunition for all training exercises. Users must coordinate with range control to determine when/if cleared ammunition is required.

6. The purchase of class V(W) materiel or commercial ammunition items by any Marine Corps organization other than MARCORSYSCOM is prohibited. Special authority exists for the Marine Corps Warfighting Lab, Quantico to purchase developmental items to conduct research and development as directed by CMC.

7. Training ammunition and simulation will be utilized to attain approved Marine Corps training standards that are contained in:

a. Individual Training Standards (ITS), MCO 1510 series, and approved Training & Readiness Manuals.

b. Marine Corps Combat Readiness Evaluation System (MCCRES) documents containing Mission Performance Standards (MPS), MCO 3501 series.

c. Weapons Drill Guide.

d. Battle Drill Guide.

8. Security ammunition held by units will be subsumed from their annual training allowance and may be rotated on a reasonable periodic basis to replace ammunition found to have incidental damage that occurs in routine handling. Security ammunition being replaced (which is otherwise serviceable) may be expended as training assets and will be chargeable against current annual training allowances. Units may not exceed their total annual allowance in this manner without specific authorization from appropriate authority. Except where specifically identified in this bulletin, security allowances will be determined by the commander. Ammunition assets held for security purposes will be protected per OPNAVINST 5530.13 (Physical Security of Arms, Ammunition, and Explosives), stored in accordance with MCO P8020.10, and strictly accounted for per MCO P4400.150 and UM 4400-15.

1003. Allowances. The allowances for Class V(W) materiel contained in this Bulletin are listed for the specific purpose, weapon, or unit for which authorized.

1. Allowances contained in this Bulletin for sustainment training are based in part, on Individual Training Standards (ITS), T&R Manuals, Mission Performance Standards (MPS), and those directives listed in Appendix D, as well as currently identified tables of organization (T/O) and tables of equipment (T/E). These allowances do not represent strict literal interpretations of the ITS or T&R manuals. They represent the ammunition resources required to validate those tasks, core skills, and Commanders Mission Essential Task Lists (METL).

2. Allowances provided for Marine Corps Common Skills (MCCS) are based on the standards contained in MCO 1510.89A.

a. Units without a T/E allowance for a weapon identified in MCCS are not required to train to those tasks. Therefore, ammunition allowances are authorized for T/E weapons only.

b. For crew-served weapons on unit T/E manned by non-MOS Marines for that weapon (e.g., non-0331 on M2 Machine Guns), only one (1) team per weapon will be

trained with live fire.

3. Ammunition expended for demonstrations, family days, open house, or in preparation thereof will be minimized. In most cases, requests for special allowances or for reimbursement of annual allowances expended for such purposes, will not be considered. Additional guidance is contained in ALMAR 010/01, entitled, "USMC Policy On The Safety Of Civilian Guests".

1004. Changes to Authorized Allowances

1. Changes to permanent allowances will be processed to allow normal POM submission and procurement lead-time. Format for changes to permanent allowances are contained in Appendix B, If approved, that request will be held in abeyance and added to the next POM submission; all POM increases compete for Procurement of Ammunition, Navy/Marine Corps (PANMC) dollars. Acquisition, production and deliveries vary from DODIC to DODIC; therefore, there is no standard answer as to when the ammunition may be available for training. Example: if funding is approved for POM08 the ammunition should become available during FY09 through FY11. For those changes that do not require funding, if approved, those changes will be incorporated into the Bulletin immediately.

2. Training Requirement increases that cannot be supported within the existing "Training Requirement" will not be supported through the use of assets contained in the War Reserve Materiel Requirement (WRMR) without prior approval from Deputy Commandant, Combat Development (D/C, CD) and Deputy Commandant, Programs, and Resources (DC P&R).

3. Prior to submission, allowance changes should be concurred on during Operational Advisory Group meetings (OAG) or within an entire community affected by the change.

1005. Special Allowances

1. Funding to support special allowances does not exist, ammunition procurement is based on known requirements, therefore, special allowances that exceed the training requirement would draw directly on the out years without funding for replacement. Further, since training requirements are not decremented to offset the special allowance expenditures, inventories of war reserve materiel requirements would decline.

2. Special allowances are intended to provide commanders with additional ammunition to conduct training beyond the prescribed annual ammunition allowance. In most instances, requests for special allowances can be supported from within the unit's MARFOR or Supporting Establishment through redistribution of allocations. Commanders at all levels are encouraged to scrutinize every request for increases to annual allowances and to exhaust all means prior to seeking a special allowance. Favorable consideration will be giving to special allowance requests once the unit's MARFOR has reached 80% expenditure for that DODIC. To preclude the submission of unnecessary requests, commanders at all levels should analyze historical expenditure patterns and redistribute ammunition among their subordinates to support changing needs as required.

3. When all other options have been exhausted, requests for special allowances should be submitted via naval message. Special allowances may be authorized for those items that exceed the total munitions requirement and are eligible for stratification.

4. Requests for special allowances must be submitted to the CG TECOM Quantico, VA (Attn: C 462AMMO) via the appropriate chain of command. Info copies of special allowance requests should be provided to the CG, MARCORSYSCOM, Quantico, VA (Attn: AM-IM). Format for special allowance requests can be found in Appendix C.

5. CG TECOM will act as the approving authority for all special allowance requests based on the supportability analysis provided by CG, MARCORSYSCOM (PM Ammo).

6. The following exempt categories have been defined to distinguish them from special allowances, and may be supported as funded out of cycle increase to the training requirement:

a. Approved establishment of new units.

b. Approved changes to Plans of Instruction.

c. Approved changes to Course Descriptive Data.

1006. Simulation. Simulation and simulators are an integral part of our institutional and sustainment training development promoting a philosophy of, "...train to standard on simulators; maintain combat proficiency skills by live fire."

1. Where simulation and simulators are available (such as the Indoor Simulated Marksmanship Trainer-Enhanced (ISMT-E)), the use of simulators is directed, consistent with the provisions of published training standards.

2. Modern training devices and simulators offer considerable benefits. Application of training devices, simulators and simulation technologies are well suited to the achievement of individual and collective Marine Corps training standards. The Marine Corps will use training devices, simulators and simulation technologies to achieve four goals:

a. Improve and enhance training opportunities.

b. Provide detailed performance feedback.

c. Achieve an effective high fidelity complement to live-fire training.

d. Conserve PANMC and O&M resources associated with replenishment of ammunition consumed in live-fire training .

3. Marine Corps training devices and simulators provide the opportunity to train within a broad scope of scenarios, including those that are inherently hazardous, too difficult, or too costly to conduct live fire exercises. Situations that present an unacceptable risk level can be readily duplicated with a device or simulator and then repeated as necessary to achieve acceptable skill level without endangering personnel or risking high cost, complex equipment. This is accomplished using institutional, appended, and deployable training devices and simulators.

4. Additionally, TECOM is actively involved with HQMC, (APW, PPO), MARCORSYSCOM (CBG) and MCCDC (Requirements Division) in the development and implementation of standard/system training devices and simulators for the follow-on SRAW and JTAC/UGS.

1007. Allowance Constraints/Inventory Supportability

1. From time to time, authorized allowances may need to be constrained due to limited availability. MARCORSYSCOM will identify to TECOM those items that need to be constrained due to limited availability. This identification will occur as required. The initial submission of constrained items will be provided prior to the start of the FY in support of the annual allowance validation. TECOM will coordinate with the MARFORs and constrain those items accordingly in TAMIS-R.

2. Additional constraints may be imposed as the result of reclassification action or as production delays dictate. This action will be considered a mid year review with the action occurring early enough in the FY to permit adjustment to projected 3rd and 4th quarter requirements. MARCORSYSCOM will identify to TECOM those items that need to be constrained for the current FY not later than 15 Nov.

3. When items are constrained as a result of mid-year review, TECOM will notify ALCON via Naval Message. Upon release of the notification message, TECOM will adjust/reduce annual allowances in TAMIS-R as required, based on guidance from CG TECOM.

4. Items requiring immediate constraint due to reclassification actions or production delays will be identified by MARCORSYSCOM to TECOM as required. TECOM will coordinate with the MARFORs and constrain those items accordingly in TAMIS-R.

1008. Reports

1. Expenditure Reporting

a. Ammunition and Explosives (A&E) is most susceptible to theft or loss during field exercises. To ensure that proper accountability is afforded to all A&E, Commanding officers and officers in charge shall ensure that the Class V(W) Expenditure Report are completed accurately and in a timely manner.

b. Ammunition that has not been expended will not be reported as expended. The only exception will be ammunition sentenced as unserviceable during the turn in process.

c. Accurate and timely expenditure reporting is critical in the management of Class V(W). Expenditures will be recorded and maintained in TAMIS-R. Unless expended, no ammunition will be counted as expended unless it has been consumed or declared unserviceable. Where available, Marine Corps ammunition supply points (ASP) will update TAMIS-R with expenditures and turn-ins daily from a ROLMS output file.

d. Commanders will ensure each requisition is properly closed in the TAMIS program. A failure in Command responsibility concerning ammunition accountability may lead to their account being frozen until an audit is performed.

e. Unit annual expenditures will not exceed their annual allocation unless additional allowances are obtained through redistribution or authorized by CG TECOM. Over expenditures, unprogrammed requirement changes, or authorized allowance changes outside the normal procurement cycle have the potential to create shortfalls. Aside from approved rollovers and MEU deployments that cross fiscal years, ammunition received in one fiscal year and expended in the next is considered expended from the current fiscal years allocations. When a MEU crosses the FY, the remaining balance on 30 September of the allowance contained within this bulletin for that MEU will be used to establish the next FY allowance in

TAMIS-R. All plus ups that had been provided to MEU that will still be require must be identified to TECOM via message. This request to cross the FY with additional DODICs and quantities will be handled the same as a special allowance request. MEFs will not front load the MEU with additional ammunition for the sole purpose of redistributing the ammunition back to other units once the new FY begins. Additionally, upon return from deployment all remaining MEU allowances will be zeroed out and will not be available for redistribution.

f. Ready Service Lockers (RSL) and Range Storage Bunkers (RSB) will be categorized as an ASP. Ammunition requisitioned from the local ASP will be turned in to the RSL or RSB on the day of issue utilizing the same TAMIS-R control number. Daily transactions for both issues and turn-ins will be recorded in TAMIS-R for that storage facility. If your storage facility is not listed in TAMIS-R, contact the helpdesk via email (tamis@mcsc.usmc.mil) to have it added. Detailed procedures for remote storage facilities will be posted on the Knowledge Management Portal (KMP) (https://www.ammokmp.marcorsyscom.usmc.mil/kmp/). Units not training aboard Marine Corps or Army installations need to coordinate with TECOM Ammunition personnel to record manual expenditures in TAMIS-R if the automated ROLMS feed is not available. This output file will reflect actual DODIC issued (i.e., you received an allowance of AA45 however, you were supported with A059, then your expenditure report should reflect A059 for both the issue and if required the turn-in).

2. Exception Reporting

a. The purpose of exception reporting is to provide commanders the opportunity to substantiate, validate and document those cases where ammunition allowances are not expended during a fiscal year. It is envisioned that between 10 and 20 percent of the prescribed allowance may not be expended in a given fiscal year. In those cases, no report is required to preserve allowance levels.

b. If annual expenditures are reduced/limited to less than 80 percent during a specific fiscal year due to local temporary restrictions or abnormal operational requirements, exception reports provide CG MCCDC the opportunity to normalize annual expenditures and ensure future years availability of those assets not expended. Examples of exception reporting criteria include (but are not limited to):

(1) Long term range closure/repair that has prevented firing of specific ammunition items.

(2) Nonavailability of ammunition assets. Provide this information only if authorized allowances were not locally available for use.

(3) Operational tempo impact. Extended unplanned deployments that result in less than 80 percent ammunition consumption for previous fiscal year.

(4) Exception reports are not mandatory. However, non expenditure of ammunition allowances without detailed exception report data will result in ammunition realignment to other ammunition users.

(5) Exception reports, when submitted, must quantify the types and amounts of ammunition that were not expended, identify range number(s) that were closed, and deployment dates.

3. Munitions Report (MUREP). Contingency, Force Protection or combat expenditures need to be tracked separately and annotated as such. The automated training

expenditure reporting does not negate other reporting requirement i.e., Munitions Report (MUREP), Situation Report (SITREP). or Ammunition Status Report (AMSTAT). Specific guidance on combat and contingency expenditure reporting is contained in MCO 8010.1.

4. Serialized class V(W) expenditure reporting. Units will submit a serialize expenditure report message within 5 working days of exercise completion to CG MARCORSYSCOM QUANTICO VA, per Chapter 7 of MCO P4400_151 the Consumer-Level Supply Policy Manual.

1009. Rollover Policy

1. The Rollover Policy is designed to offset lost training opportunities resulting from exercise cancellations, unplanned deployments, or severe weather, etc. This policy will allow commanders to rollover or carry forward unexpended ammunition allowances from one fiscal year to the next. To qualify for the rollover, the following provisions must be met:

a. Ammunition not expended during one FY may be carried forward to the next FY provided that the requested item(s) expenditure rate is at least 80% of the MARFORPAC, MARFORLANT, MARFORRES, MARFOREUR/Supporting Establishment level. Rollover is not applicable to Formal Courses, Schools or CAX. Depending on inventory supportability exceptions to this policy will be made on a case-by-case basis.

b. Requests to rollover unexpended ammunition from one FY to the next must be submitted utilizing the format contained in Appendix A, no earlier than 1 October and not later than 15 November via the appropriate chain of command, to CG TECOM (C 462AMMO).

c. MARFORs are requested to consolidate and forward all requests.

d. CG TECOM is the approving authority for all rollover requests.

e. Rollover of ammunition will not be authorized for any item constrained by current inventory levels or for any items for which special allowances have been approved during the previous fiscal year.

2. Approved Rollover

a. Ammunition approved under the rollover policy will be placed into TAMIS-R and is authorized for immediate expenditure, regardless, even when assets are available at the supporting activities forecasting rules apply.

b. Rollover ammunition will be consumed prior to consumption of current annual allowance.

c. Ammunition approved for rollover may not be accumulated from year to year.

1010. Bulk Allowances for Operational Organizations. Dummy, Inert, Safety Pyrotechnics, and other miscellaneous ammunition items that are not typically expended to satisfy training standards have been allocated to MEFs in a bulk allowance to support there subordinate units and removed from most of the various allowances.

1011. Testing Allowances. Ammunition allowances for established testing are listed in Appendix G of this bulletin. Requirements for testing must be identified

to COMMARCORSYSCOM (AM) to ensure supportability. COMMARCORSYSCOM (AM) will provide testing allowances through separate correspondence and added to TAMIS-R accordingly.

1012. Ceremonial Allowances7

1. All ceremonial allowances are provided on an "as required" basis. DoN Regulations for Flags, Pennants, Honors, Ceremonies, and Customs (chapter 12) establishes policy for rendering of gun salutes. Gun salutes are intended to honor foreign and domestic flag officers, foreign nations and to render return gun salutes. The firing of ceremonial guns are not intended for routine use such as morning colors, community events, race starts, etc. The use of saluting rounds for purposes other than rendering Honors are beyond the scope of "as required." They will be considered as a special allowance request, separate and in addition to the allowance "as required." In those instances where ceremonial ammunition is required, saluting stations must notify TECOM to have the ammunition allowance put into TAMIS-R.

2. Cartridge 7.62mm Blank (DODIC A112) is authorized for ceremonial use with the M14 Rifle for units so equipped. Cartridge 75mm Blank (DODIC C025) is authorized for use only at Camp H.M. Smith or other Oahu locations as designated by Commander Marine Forces Pacific. Cartridge 40mm Blank (DODIC B550), a low 50 Gram charge round, is especially fabricated for use by MarBks, 8th and I, Washington, DC and Headquarters and Service Battalion, Fleet Marine Forces Pacific (FMFPAC), Camp H.M. Smith, HI. Cartridge Caliber .30 Blank (DODIC A222) is also authorized only for MarBks, 8th and I. All other activities involved in ceremonial saluting will use the high 200 Gram charge round, Cartridge 40mm Blank (DODIC B650).

3. OPNAVINST 5060.5 contains the designation of saluting ships and stations. The following U.S. Marine Corps activities are designated as saluting stations:

Projected Annual Requirements

Activity/Command	Qty	DoDIC
Marine Corps Combat Development Command Quantico, VA	400	B650
Marine Corps Base, Camp Lejeune, NC	350	B650
Marine Corps Base, Camp Pendleton, CA	300	B650
Marine Corps Air Station, Cherry Point, NC	100	B650
Marine Corps Air Station, MiraMar, CA	100	B650
Marine Corps Base, Hawaii, Kaneohe Bay,	152	B650
Marine Corps Air-Ground Task Force Training Command, Twentynine Palms,	100	B650
MCRD/Western Recruiting Region, San Diego, CA	576	B650
MCRD/Eastern Recruiting Region, Parris Island, SC	100	B650
Marine Corps Logistics Base, Albany, GA	126	B650
Marine Corps Logistics Base, Barstow CA	100	B650
Headquarters, 1st MAW, MCAS Iwakuni, Japan	100	B650
Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan	300	B650
Marine Barracks, 8th and I Streets, S.E., Washington, DC 1/	1,000	B550
Headquarters and Service Battalion, FMFPac, Camp H.M. Smith, HI 1/	300	B550
Camp H.M. Smith, USMC Halawa Heights, Oahu, HI 2/	1,000	C025

1/ A special 40mm Blank Saluting Cartridge with 50 Grain charge, DoDIC B550, is used by this activity.

2/ 75mm pack howitzers are used by this activity. Cartridge 75mm Blank Model M337A2, DoDIC C025.

The above addressees are required to update their projected annual requirements

for saluting ammunition by submitting expenditure reports to CG, MCCDC (C 462 Ammo).

1013. Fire Conditions/Tracer Ammunition. Ammunition without the tracer element are fair shared allocated throughout this bulletin to all operational forces who receive an annual allowance for the belted small arms ammunition with tracer. It is recommended that this ammunition be consolidated and held at the MARFOR or MSC level. This ammunition should only be used in the support of training when local fire conditions prohibit the use of tracers.

1014. Inerting and Displaying of Ammunition

1. COMMARFORs and Commanding Generals of the Supporting Establishment are authorized to approve the inerting of ammunition for training purposes by EOD personnel, per paragraph 8.d(5) of MCO 3571.2F. They may also authorize the display of inert ammunition by any approved unit. However, no ammunition or explosive item will be inerted for the sole purpose of display. Additionally, inerting of any type munitions must be performed in accordance with current EOD technical publications, instructions, and policies.

2. No ammunition item/device, whether inert, practice, service live, or any component thereof will be inerted or used for training aides without the prior approval of COMMARFOR or Commander of Supporting Establishment. When approved, EOD personnel will inert or inspect, mark and then permanently record these actions. This does not modify existing regulations that permit authorized EOD technicians to maintain technical proficiency in training with live ordnance.

3. Ammunition items or devices that have been inerted for training purposes, including those items/devices authorized for display, will be clearly marked at all times per NAVSEA OP 5 Vol 1.

1015. Rifle and Pistol Requalification. This bulletin does not provide allowances to units electing to support rifle and pistol requalification requirements. Allowances are provided to the respective Bases and Stations to conduct the training. As of FY01, Base and Station ammunition sections are authorized to reallocate assets in TAMIS-R to support the requirement from the Base to the MEF.

1016. Frangible Ammunition. The 5.56mm Limited Penetration Cartridge (DODIC: AA17) and the5.56mm Semi-jacketed Frangible Cartridge (DODIC: AA40) are authorized for limited USMC operational use in Close Quarters Combat (CQC) scenarios such as Military Operations in Urban Terrain (MOUT), Military Interdiction Operations (MIO) and Non-combatant Evacuation Operations (NEO).

1017. Dummy and Inert

1. The term dummy describes a round-type that is made for preliminary training, function test, and school use. It contains no explosive charge and is completely safe to use and store. Dummy rounds are considered non-expendable and may be replaced when worn out.

2. The term inert is used to describe a device that is a replica of live ammunition without an explosive charge. Inert rounds are completely safe to use and store and are considered non-expendable and may be replaced when worn out.

1018. Interchangeable DODIC List. Often when an item is replaced by a newer item the need to continue to train with the replaced item is considered prudent to

offset procurements of the newer item as well as permit time to attain the approved acquisition objective (AAO) of the newer item. The list contained on the Knowledge Management Portal at (https://www.ammokmp.marcorsyscom.usmc.mil/kmp/) represents the newer item, known as the prime DODIC, which is identified in the total munitions requirements (TMR) and the replaced items that are considered interchangeable for training. Consideration is given to balancing training expenditures as required to allow consuming the replaced item in lieu of the prime item when practical. Ammunition Supply Points (ASP) are authorized to fill requests for the prime item with the interchangeable item if available, and as authorized. Regardless of which DODIC is expended, the total expenditure will not exceed the unit's annual training allocation.

1019. Automation. In order to take full advantage of existing technology, this Bulletin has been automated into the Marine Corps Ammunition Requirements Management System-Training Requirements Subsystem (MCARMS-TRS). Publication and distribution of training allowances in this manner supports the changing requirements of the Marine Corps and reduces reproduction costs.

CLASS V(W) MATERIEL ALLOWANCES FOR TRAINING, ESTABLISHED TESTING AND SECURITY

Chapter 2

MARFORLANT, MCBLANT

2000. MARFORLANT Allowances

1. Infantry Battalion. The allowance listed below is provided to support an Infantry Battalion for 12 months. Ammunition managers at the Division level must prorate the allowance to support the unit for the number of months that they will be attached to the Division to complete training. For example, if they are scheduled for a UDP rotation or MEU deployment, they might be with the Division for the first three months, deployed the next six months and return to the Division for the remainder of the FY then that unit would receive six months of the unit allocation. Mortar allowances contained under the 2nd MarDiv is provided to support Tactical Air Control Party (TACP). Mortar allowances contained under the 2nd MarDiv/ANGLICO is provided to support Air Naval Gunfire Liaison Company (ANGLICO).

5. Field Artillery. Artillery External Requirements. The following allowances are provided for informational purposes.

a. Following MEU(SOC) allowances cover work-up and deployment training ammunition (inclusive) CONUS based MEUs. 155MM HE 575 rds, Illum 57 rds, WP 73 rds and ancillary components. Additionally, 500 rds Prac made available iso MEUs training in Vieques ONLY.

b. Fire Support Man/NGLO will be a II MEF 81MM Mortar back-up firing commitment.

c. CORTRAMID is an annual "as required" ammunition requirement as determined by the responsible MEF.

d. ACE Artillery ammunition is allocated by the artillery regiment of the parent MEF.

e. TACP annual allowances are; 155MM HE 1050 rds, Illum 350 rds, WP 700 rds and ancillary components.

f. ANGLICO annual allowances are; 155MM HE 608 rds, Illum 79 rds, Felt Wedge 36 rds, WP 86 rds, and ancillary components.

10. Supporting Arms Coordination. Artillery and mortar ammunition required to support HMLA and VMFA (AW) squadrons have been provided to the respective artillery regiment and Marine Division in this chapter of the bulletin. Coordinate through the respective MEF and/or Division for artillery or mortar support.

11. SOTG Course. The below (SOTG Student) allowance supports (200) students, MARFORLANT's projected throughput is 2000 students. The below II MEF allowance reflects the entire annual allowance for all SOTG courses. Note: Use of the frangible ammunition will be limited to inside shooting houses only.

2001. Ammunition and EOD Officers and Technicians. The annual allowances contained in paragraph 2001.1.b and 2001.1.c are for sustainment and technology assessment training of all Explosive Ordnance Disposal (EOD) personnel in proper techniques for performance of procedures outlined in Navy EOD Bulletins (EODB) 60-series publications and MCO 8027.1. Allowances contained in paragraphs 2001.2 and 2001.3 are provided as operational allowances for the respective Bases, Stations and MWSS.

a. When authorized, MOS's 2305, 2340, 2311 and 2336 may use damaged/unserviceable ammunition to conduct emergency destruction training or combat disposal training. Quantities and type depend on local range restrictions and number of Marines to be trained. Munitions containing Depleted Uranium (DU) compounds are not authorized for this training. These munitions will be shipped to appropriate designated receiving activities for demilitarization. Requests to conduct destruction or disposal training will be forwarded for each event to MARCORSYSCOM (AM-EES). Requests will contain the following information:

1. Complete list of items to be destroyed/disposed (DODIC, nomenclature, quantities, and the anticipated date of training).

2. Complete list of the serviceable ammunition (donor materiel) required to conduct the destruction/disposal.

b. 2nd FSSG

CLASS V(W) MATERIEL ALLOWANCES FOR TRAINING AND SECURITY

Chapter 3

MARFORPAC, MCBPAC

3000. MARFORPAC Allowances

1. Infantry Battalion. The allowance listed below is provided to support an Infantry Battalion for 12 months. Ammunition managers at the Division level must prorate the allowance to support the unit for the number of months that they will be attached to the Division to complete training. For example, if they are scheduled for a UDP rotation or MEU deployment, they might be with the Division for the first three months, deployed the next six months and return to the Division for the remainder of the FY then that unit would receive six months of the unit allocation. Mortar allowances contained under the 1st and 3d MarDiv is provided to support TACP. Mortar allowances contained under the 1st MarDiv/ANGLICO is provided to support Air Naval Gunfire Liaison Company (ANGLICO).

MU43	Cord, Detonating 600 Grains per Foot	32
WF10	Guided Missile, Surface Attack BGM-71D-5 (TOW-2)	8

Note: Use of the frangible ammunition is limited to inside shooting houses only.

5. Field Artillery. Artillery Internal and External Requirements. The following allowances are provided for informational purposes.

a. Following MEU(SOC) allowances cover work-up and deployment training ammunition(inclusive) CONUS based MEUs. 155MM HE 575 rds, Illum 57 rds, WP 73 rds and ancillary components.

b. 12th Marines are required to allocate sustainment training ammunition for 31st MEU deployment phrase training in III MEF AOR per the FY98 Artillery Subject Matter Expert conference.

c. Fire Support Man/NGLO will be a I MEF 81MM Mortar back-up firing commitment.

d. CORTRAMID is an annual "as required" ammunition requirement as determined by the responsible MEF.

e. ACE Artillery ammunition is allocated by the artillery regiment of the parent MEF.

f. Fire Support Coordination Application Course, (FSCAC) allowances are contained in the I MEF allowance; 155mm HE 350 rds, Illum 29 rds and ancillary components.

g. TACP annual allowances are contained in the I MEF allowance; 155MM HE 1050 rds, Illum 350 rds, WP 700 rds and ancillary components.

h. Weapons, Tactics and Instructions, (WTI) annual allowances are contained in the I MEF allowance; 155mm HE 1060 rds, Illum 100 rds, WP 240 rds smoke 32 rds and ancillary components.

i. ANGLICO annual allowances are contained in the I MEF allowance; 155MM HE 608 rds, Illum 79 rds, Felt Wedge 36 rds, WP 86 rds, and ancillary components.

10. Supporting Arms Coordination. Artillery and mortar ammunition required to support HMLA and VMFA (AW) squadrons has been provided to the respective artillery regiments and Marine Divisions in this chapter of the bulletin. Coordinate through the respective MEF and/or Division for artillery and mortar support.

11. SOTG Course. The I MEF, III MEF and Joint Warfare Training Center (JWTC) allowances below reflects the entire annual allowance for all SOTG courses. The MCB CamPen and NL Student allowance supports (200) students. MARFORPAC's projected throughput is; MCB CamPen (200), I MEF (600) and III MEF (400) students.

3001. Explosive Ordnance Disposal

1. Ammunition and EOD Officers and Technician. The annual allowances contained in paragraph 3001.1.b and 3001.1.c (below) are for sustainment and technology assessment training of all Explosive Ordnance Disposal (EOD) personnel in proper techniques for performance of procedures outlined in Navy EOD Bulletins (EODB) 60-series publications and MCO 8027.1. Allowances contained in paragraphs 3001.2 and 3001.3 are provided as operational allowances for the respective Bases and Stations.

a. When authorized, MOSs 2305, 2340, 2311 and 2336 may use damaged/unserviceable ammunition to conduct emergency destruction training or combat disposal training. Quantities and type depend on local range restrictions and number of Marines to be trained. Munitions containing Depleted Uranium (DU) compounds are not authorized for this training. These munitions will be shipped to appropriate designated receiving activities for demilitarization. Requests to conduct destruction or disposal training will be forwarded for each event, to both CG, TECOM (C 462AMMO) for allowance approval, and COMMARCORSYSCOM (AM). Requests in the form of Naval Messages detailing ammunition types will contain the following information:

(1) Complete list of items to be destroyed/disposed (DODIC, nomenclature, quantities, and the anticipated date of training).

(2) Complete list of the serviceable ammunition (donor materiel) required to conduct the destruction/disposal.

b. Base Stations MWSS

a. CAX. The quantities identified below represent the allowance for one Active CAX and one Reserve CAX. Unexpended allowance may be moved between CAX, at the discretion of TTECG, provided overall CAX allowance is not exceeded. Total Annual Allowance for CAX may be determined by calculating the total number of Active and Reserve CAX's conducted by the respective allowance identified.

5002. Explosive Ordnance Disposal

1. The annual allowances contained in paragraph 5002.1b (below) are for sustainment and technology assessment training of all Explosive Ordnance Disposal (EOD) personnel in proper techniques for performance of procedures outlined in Navy EOD Bulletins (EODB) 60-series publications and MCO 8027.1.

a. Allowances contained in paragraph 5002.1c are provided as operational allowances for the respective Bases and Stations. When authorized, MOS's 2305, 2340, 2311 and 2336 may use damaged/unserviceable ammunition to conduct emergency destruction training or combat disposal training. Quantities and type depend on local range restrictions and number of Marines to be trained. Munitions containing Depleted Uranium (DU) compounds are not authorized for this training. These munitions will be shipped to appropriate designated receiving activities for demilitarization. Requests to conduct destruction or disposal training will be forwarded for each event to both CG, TECOM (C 462AMMO) for allowance approval and COMMARCORSYSCOM (AM-EES). Requests will contain the following information:

(1) Complete list of items to be destroyed/disposed (DODIC, nomenclature, quantities, and the anticipated date of training).

(2) Complete list of the serviceable ammunition (donor materiel) required to conduct the destruction/disposal.

b. EOD and Ammunition Officers, and Ammunition and EOD Technician. The allowance below reflects the entire annual training allowance.

CLASS V(W) MATERIEL ALLOWANCES FOR TRAINING, ESTABLISHED TESTING AND SECURITY

Chapter 6

FORMAL COURSES AND SCHOOLS

6000. General. The allowances described in the following paragraphs support formal schools, professional development training given at Marine Corps installations worldwide, and formal training provided at other-Service installations.

6001. Accession Training

1. Officer Candidates School

a. Individual Training for Officer Candidates (SSC: RMA), Officer Candidates Course (OCC), Platoon Leaders Course (SSC: RMJ), Platoon Leaders Courses (PLC), US Naval Academy (USNA) and Naval Reserve Officer Training Corps (NROTC), MCCDC.

DODIC	Nomenclature	Quantity
A075	Cartridge, 5.56mm Blank M200 Linked	30,400
A080	Cartridge, 5.56mm Blank M200 Single Round	187,200
B535	Cartridge, 40mm White Star Parachute M583/M583A1	260
G895	Grenade, Hand Illuminating MK1 Mods 0/1/2	204
G982	Grenade, Hand Practice Smoke TA M83	608
L594	Simulator, Projectile Ground Burst M115A2	408
L598	Simulator, Explosive Booby Trap Flash M117	292
L599	Simulator, Explosive Booby Trap Illuminating M118	312

b. Pre-Commissioning Program (M02RMC3)

DODIC	Nomenclature	Quantity
A075	Cartridge, 5.56mm Blank M200 Linked	8,400
A080	Cartridge, 5.56mm Blank M200 Single Round	17,160
B535	Cartridge, 40mm White Star Parachute M583/M583A1	44
G895	Grenade, Hand Illuminating MK1 Mods 0/1/2	62
G982	Grenade, Hand Practice Smoke TA M83	240
L594	Simulator, Projectile Ground Burst M115A2	124
L598	Simulator, Explosive Booby Trap Flash M117	26
L599	Simulator, Explosive Booby Trap Illuminating M118	66

c. Individual Training for Communications/Demonstration Platoon. Individual training for Marines assigned to Communications/Demonstration Platoon will now be supported by MCCS ammunition allowances in chapter 5.

2. Recruit Crucible Training

a. San Diego, (SSC: 808)

(1) Crucible

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	230,400
G940	Grenade, Hand Green Smoke M18	744
G945	Grenade, Hand Yellow Smoke M18	553
L495	Flare, Surface Trip M49 Series	526
L594	Simulator, Projectile Ground Burst M115A2	382
L598	Simulator, Explosive Booby Trap Flash M117	2,004

(2) Field Skills

DODIC	Nomenclature	Quantity
A080	Cartridge, 5.56mm Blank M200 Single Round	190,800

DODIC	Nomenclature	Quantity
K765	Riot Control Agent, CS	3,000
L495	Flare, Surface Trip M49 Series	225
L598	Simulator, Explosive Booby Trap Flash M117	2,003

b. Parris Island, (SSC: 808)

(1) Crucible

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	212,850
G940	Grenade, Hand Green Smoke M18	826
G945	Grenade, Hand Yellow Smoke M18	614
L312	Signal, Illumination Ground White Star Parachute M127A1	1,004
L594	Simulator, Projectile Ground Burst M115A2	424
L598	Simulator, Explosive Booby Trap Flash M117	1,906

(2) Field Skills

DODIC	Nomenclature	Quantity
A080	Cartridge, 5.56mm Blank M200 Single Round	105,900
K765	Riot Control Agent, CS	2,542
L495	Flare, Surface Trip M49 Series	1,002
L598	Simulator, Explosive Booby Trap Flash M117	1,906

6002. Professional Development Courses

1. Officer Schools

a. Basic Officer Course (BOC)

Chapter 7

MARKSMANSHIP TRAINING AND MARINE CORPS COMMON SKILLS

7000. General. Marksmanship Training Program (See MCO 3574.2). Allowances provided to the Commanding Officer, Weapons Training Battalion, TECOM for commercially procured ammunition are no longer contained in this bulletin. Commercially procured ammunition and/or component allowances are restricted to those types and quantities provided for in the annual funding document authorizing procurement of that ammunition and/or component.

1. Initial Marksmanship Training (Rifle)

a. Annual (Range)

DODIC	Nomenclature	Quantity
A060	Cartridge, 5.56mm Dummy M199	150
A359	Cartridge, 9mm Dummy M917	150

b. Indiv (Rifle)

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	270
A063	Cartridge, 5.56mm Tracer M856 Single Round	9
B535	Cartridge, 40mm White Star Parachute M583/M583A1	0
L495	Flare, Surface Trip M49 Series	0

2. Initial Marksmanship Training (Pistol)

DODIC	Nomenclature	Quantity
A363	Cartridge, 9mm Ball M882	332

3. Sustainment Marksmanship Training (Rifle)

a. Annual (Range)

DODIC	Nomenclature	Quantity
A060	Cartridge, 5.56mm Dummy M199	150
A359	Cartridge, 9mm Dummy M917	50

b. Indiv (Rifle)

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	220

4. Sustainment Marksmanship Training (Pistol)

DODIC	Nomenclature	Quantity
A363	Cartridge, 9mm Ball M882	200

5. Shotgun Familiarization Training

DODIC	Nomenclature	Quantity
AA60	Cartridge, 12 Gauge #00 Buckshot	15

7001. Competition-in-Arms Programs (See MCO 3591.2)

1. Post and Station Rifle and Pistol Teams

a. Indiv (Pistol)

DODIC	Nomenclature	Quantity
A363	Cartridge, 9mm Ball M882	2,000

b. Indiv (Rifle)

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	1,000
A091	Cartridge, Caliber .22 Ball Long Rifle Match (Rifle)	2,000
AA67	Cartridge, 5.56mm Moly-Coated	2,500

c. Team

DODIC	Nomenclature	Quantity
A482	Cartridge, Caliber .45 Wadcutter	20,000
A483	Cartridge, Caliber .45 Ball M1911 Match	24,000

2. Intramural Matches

a. Indiv (Pistol)

DODIC	Nomenclature	Quantity
A363	Cartridge, 9mm Ball M882	500

b. Indiv (Rifle)

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	500

3. Division Matches

a. Eastern

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	200,000
A363	Cartridge, 9mm Ball M882	200,000

b. Far East

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	185,000
A363	Cartridge, 9mm Ball M882	150,750

c. Pacific

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	88,000
A363	Cartridge, 9mm Ball M882	85,000

d. Western

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	309,000
A363	Cartridge, 9mm Ball M882	251,250

4. Marine Corps Matches/Practice

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	35,000
A483	Cartridge, Caliber .45 Ball M1911 Match	75,000
AA67	Cartridge, 5.56mm Moly-Coated	100,000

5. Marine Corps Junior Reserve Officers Training Corps

DODIC	Nomenclature	Quantity
A091	Cartridge, Caliber .22 Ball Long Rifle Match (Rifle)	200,000

7002. Marine Corps Common Skills Training

1. The MCCS Order was revised in its entirety reflecting updates to the Individual Training Standards. Specific details can be found in MCO 1510.89.

2. The following allowances are provided for the conduct of MCCS sustainment training.

a. Only one (1) team per crew-served weapon on unit T/E manned by non-MOS Marines for that weapon will be trained with full live-fire allowances (e.g., non-0331 on M2 Machine Guns).

b. Simulation is an integral part of training development, and ideally suited to conduct of MCCS (Sustainment Training). Where simulators are available, and standards have been updated to incorporate simulation, the use of simulators is directed.

c. EMP

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	228

d. Event

DODIC	Nomenclature	Quantity
K765	Riot Control Agent, CS	10

e. Indiv

DODIC	Nomenclature	Quantity
A080	Cartridge, 5.56mm Blank M200 Single Round	25
G878	Fuze, Hand Grenade Practice M228	3
G881	Grenade, Hand Fragmentation M67	0.36
K765	Riot Control Agent, CS	0.10
L598	Simulator, Explosive Booby Trap Flash M117	0.07
L599	Simulator, Explosive Booby Trap Illuminating M118	0.07

f. REMP

DODIC	Nomenclature	Quantity
A059	Cartridge, 5.56mm Ball M855 10/Clip Sub f/AA45	220

g. SAW

DODIC	Nomenclature	Quantity
A064	Cartridge, 5.56mm 4 Ball M855/1 Tracer M856 Linked	100
A075	Cartridge, 5.56mm Blank M200 Linked	100

Note: Per CG MCCDC message 151600Z FEB 00 the following formula to initially charge the CS chamber will be calculated as follows: length x width x height (interior of chamber in meters) divided by 30, minus 1 (-1), equals total capsules to initially charge chamber. Normally, depending on size of chamber, six to eight capsules are adequate to establish initial concentration. After initial concentration add one capsule per ten personnel entering the chamber.

3. Sustainment Training (Machine Gun Teams)

a. MG Team M2

DODIC	Nomenclature	Quantity
A576	Cartridge, Caliber .50 4 API M8/1 API-T M20 Linked	100

b. MG Team M240

DODIC	Nomenclature	Quantity
A111	Cartridge, 7.62mm Blank M82 Linked	160
A131	Cartridge, 7.62mm 4 Ball M80/1 Tracer M62 Linked	200

c. MG Team MK19

DODIC	Nomenclature	Quantity
B542	Cartridge, 40mm HEDP M430/M430A1 Linked	8
BA12	Cartridge, 40mm Practice MK 281 Mod 0	20

APPENDIX B

SAMPLE FORMAT FOR ANNUAL SUBMISSION OF RECOMMENDED CHANGES TO CLASS V(W) ALLOWANCES AS REQUIRED BY PARAGRAPH 5 OF MCO P8011.4H. SUBMIT VIA NAVAL MESSAGE.

PARAGRAPH	DODIC	ITEM	RECOMMENDED ALLOWANCE	CURRENT ALLOWANCE	WPN/PERS INPUT	CLS PER YEAR	TOTAL FY
6002.1.a(1)	A080	Ctg, 5.56mm Blank	3,750/Ann	2,280/Ann			3,750
7002.2.g	L594	Simulator, Proj, Ground Burst	350/Class	300/Class		8	2,800
9,001.1	A059	Ctg, 5.56mmBall	50	25	1,200		60,000

Justification: Reason for increase or decrease of authorized allowances.

Note: A copy of recommended changes should be forwarded to like commands/units, as appropriate, early enough to allow for all recommendations to reach CG TECOM (C 462AMMO) NLT 30 November 2005 to make the POM08 submission. Where applicable, submit via chain of command. In addition, provide a copy to COMMARCORSYSCOM (AM).

APPENDIX C

Sample format for submission of special class v(w) allowance as required by paragraph 6a of MCO P8011.4h. Submit via Naval message.

RMKS/1. PER THE REF, THE FOLLOWING IS SUBMITTED.
2. REQUEST NUMBER: FY04-001
3. THE FOLLOWING REQUESTED DODICS AND QTYS HAVE AN EXPENDITURE RATE ABOVE 80 PERCENT DURING FY04:

DODIC	QTY	%EXPEND
A976	200	83%
B576	430	96%

4. TRAINING/SHIPPING LOCATION: CAMP FUJI/CAMP FUJI
5. PROJECTED EXPENDITURE DATE: 03 NOV 02
6. JUSTIFICATION: COMBAT ASSAULT BATTALION IS PARTICIPATING IN COMBINED ARMS OPERATION 01-4. A940 IS NIS AND A975 IS RESTRICTED FROM USE IN THE FUJI TRAINING AREA. CAB RATES A976, HOWEVER, QUANTITIES ARE INSUFFICIENT TO PARTICIPATE IN CAO 01-4. THIS IS A ONE TIME NON-RECURRING REQUEST. WE HAVE EXPLORED REDISTRIBUTION WITH ALL OTHER USERS OF A976 AND A940.
7. AVAILABILITY: WE HAVE VERIFIED THAT ASSETS ARE AVAILABLE AT CAMP FUJI FOR ISSUE, SHIPPING IS NOT REQUIRED.
8. SUITABLE SUB: NONE//
